

# It can be hell for leather...

Ensure your boots last with seven easy steps

**1 REMOVE** dirt, mud, manure, salt water etc with clean cold water using a brush if necessary to get rid of more stubborn grime.

**6 LEAVE** your boots to dry naturally for 2-3 hours.

**2 APPLY** Dubarry Footwear Cleaner and scrub with a brush to help remove more ingrained dirt and other residues. Work this to get a generous lather and don't be afraid to scrub the leather vigorously.

**7 APPLY** Dubarry Leather Cream sparingly to the smooth leather only, rubbing in gently with a clean, soft cloth or brush, paying particular attention to the flex area, that bends as you walk.

**3 RINSE** excess cleaner and lather from the boots.

**4 DRY** naturally; ideally air dry for 24 hours before any further treatment. Never use artificial heat or leave near an open fire or range.

**5 SPRAY** Dubarry Footwear Protector all over the boot; apply several layers, allowing absorption of each layer, before applying the next. This step is best completed outside.

Use Footwear Cleaner on all parts of the boot

Use tap water to clean fabric section

Apply Footwear Protector Spray to the nubuck and suede leathers

Apply Leather Cream to the smooth leathers

**Leather is low maintenance but unfortunately some customers often perceive this as no maintenance. If you follow these instructions your Dubarry leather will keep its look and suppleness for many years to come**

**IMPORTANT:** salt water and waste liquids can be very corrosive to leather. To prolong performance and protection for your Dubarrys, always scrub them with a brush and rinse with fresh tap water after exposure.

**STORAGE:** all rubber-based materials may break down over time through the process of oxidation and hydrolysis. This normally occurs after at least 10 years so is not usually an issue. It can be accelerated in tropical climates if not stored in a cool well ventilated place, or if stored in direct sunlight.

**CAUTIONS WHEN USING ALL FOOTWEAR CARE PRODUCTS:**

Irritating to eyes. Keep away from areas of ignition. Do not smoke around products. Vapours may cause dizziness and drowsiness. Do not breathe spray. Avoid contact with eyes and skin. Use in a well ventilated area. In the case of contact with eyes, rinse immediately with cold water and seek medical advice. Keep containers tightly closed.
